Subject: RHNA Determinations

To Whom It Concerns:

I live in the City of Laguna Niguel and have enjoyed this beautiful community for 30 years. I understand your role to increase statewide housing production, however I believe that local government should be making those decisions - clearly "one size does not fit all" and we are being saddled with arbitrary housing numbers that may not work for our community. I would implore you to relinquish some of your authority back to the Counties and Cities where it belongs.

Thanks you. Karen Davis Ferlatuo
